

ARE YOU READY TO HELP A LOST DOG OR CAT YOU COME ACROSS WHILE TRAVELING?

A Home of Their Own Animal Rescue

Having a "Pet Emergency Assistance - Car Kit" will prove to be extremely beneficial should you find yourself in a situation where a dog or cat needs your help while you're out and about on the road.

We have put together a list of recommended supplies that we think would be extremely useful to have in your vehicle.

SEE A LOST DOG? DON'T CHASE, WHISTLE OR CALL OUT TO THEM!

- Grab a leash and smelly food if you have it, and get down on the ground, or as low as possible.
- Stay calm.
- Don't make direct eye contact.
- Make slow movements and use a soft voice.
- If the dog won't come to you, don't follow! A dog in flight mode is thinking about shelter, food & water and survival. **Everyone** is perceived as a threat.
- Report the sighting to local Animal Control. They may have a lost report.
- If it's a **known** lost dog, try to get a photo and notify the owner by phone or direct message. Do not post on social media. Well-meaning people will go to the area to help and push the dog out of the area, possibly into harm's way. If this is an **unknown** lost dog, post sighting on social media. Share to local lost & found groups/pages on Facebook, NextDoor and Ring Neighbors app.
